The Effect of Red Light Stimulus on the Foraging Behavior of Drosophila melanogaster Through Measuring the Proboscis Activity

The Effect of Soil Nitrogen Levels on Thigmotrophic Responses in the Venus flytrap, Dionaea muscipula

Hypericum perforatum Extracts and Hypericin Treatment of a Mouse Mammary Cancer Cell Line Induces Growth Inhibition in a Dose Dependent Manner

Carbon Sequestration to Generate Calcium Carbonate: A Practical Approach to Sequester Residential CO2 Exhaust

Stress Response to Different Concentrations of NaCl: Analysis of Root Length and Protein Expression on Wild Type Arabidopsis thaliana

Bioconcentration of Corexit® Dispersant Surfactant in the Oyster Crassostrea gigas

Improving Solar Water Disinfection (SODIS) with a Photoreactive TiO2/SWCNT Composite on Plastic PET Bottles

Analysis of PAN and PEGDA Coated Membranes for Filtering Water with Reduced Fouling and Increased Heavy Metal Adsorption

A Multi-Spacecraft Approach to Studying Auroral Kilometric Radiation Using the Virtual Wave Observatory

Survivin Cancer
Survivin is Essential for Efficient Cell Mobility and Proliferation in U87 and C6 Glioma Cells
